19 X 17 mm
Material: Messing vernickelt

Dienen dazu, Flaschen ohne Gewinde (z.B. mundgeblasene Flaschen oder Porzellanflakons) an Standardgewindegrößen zu adaptieren oder eine kleine Gewindenorm auf eine größere abzuändern.

These rings are used to adapt bottles without screw neck (e.g. mouth-blown bottles or porcelain bottles) to standard neck sizes, or to convert a smaller neck into a larger standard size.

Ces anneaux sont prévus pour adapter des flacons sans bague à vis (flacons de verre soufflés bouche, flacons en porcelaine) à des bagues à vis standard ou pour convertir une bague standard plus petite en une bague standard plus grande.
